Tihen Notes from 1957 Wichita Eagle, p. 1

Dr. Edward N. Tihen (1924-1991) was an avid reader and researcher of Wichita newspapers. His notes from Wichita newspapers -- the “Tihen Notes,” as we call them -- provide an excellent starting point for further research. They present brief synopses of newspaper articles, identify the newspaper -- Eagle, Beacon or Eagle-Beacon -- in which the stories first appeared, and give exact references to the pages on which the articles are found. Microfilmed copies of these newspapers are available at the Wichita State University Libraries, the Wichita Public Library, or by interlibrary loan from the Kansas State Historical Society.

The six story Michigan Building, 206 East Douglas, has been leased for a long term to the General Retail Corporation, of Nashville, Tennessee, which will remodel it for use as a shoe store. The building has been occupied for some 25 years by the Bennett Music Company, which recently moved to a new location at Oliver and Central. The property is owned by Mrs. Maurice P. Barnes, of Wichita, and Mrs. Winnie Shelley, of Long Beach, California.

The two story frame house on southeast corner of Rutan and Douglas, a landmark since it was built by pioneer Wichita attorney Paul Brown in 1907, has been razed starting about one month ago to make way for a modern split-level office building. The house has been vacant since Mr. Brown’s death in 1952, according to Joseph H. and Norman L. Brown, Wichita attorneys and nephews of Paul Brown. The dwelling and lot, with 150 foot frontage on Douglas and 145 feet on Rutan, was purchased from the Brown Estate by Preferred Investments, a Wichita firm owned by N. H. Bekemeyer, local builder, and W. W. Taylor, realtor. Details.

Further consideration of the proposal to place the Wichita Transportation Corporation in hands of a “non-profit corporation” is expected next Tuesday, City Manager Frank Backstrom said yesterday. Backstrom said he received a report from Merritt Winsby, general manager of the company, advising that the operations report for the bus firm will be completed Thursday and ready for submission to the City Commission on Tuesday. The proposal to place the bus firm in such a corporation, where the city might lease the buses and the enter into a management contract, was initiated last August. A decline in transit revenue has placed the firm in a position where it is not paying a franchise tax to the city. The company paid no franchise tax during 1956.

The proposed plan to have the city of Wichita take over the operation of the Wichita Transportation Corporation is no longer feasible at this time. Because of lack of time the transit firm was unable to have a non-profit operational bill introduced in this session of the Legislature, so such a plan would necessarily be delayed at least two years until the next regular session of the Legislature. C. Merritt Winsby, general manager of the firm, said yesterday that Articles of Incorporation were filed in Topeka yesterday, incorporating a new firm, the Wichita Bus Company, Inc. This transaction, change of ownership, is patterned after what is known as the Atlanta Plan, where the purchase of the company is made by new stockholders consisting mainly of management. The purchase plan is on a long term arrangement. Such a plan was accomplished about a year ago in Topeka. It was first put into use in Atlanta, Georgia. Winsby said he would ask the City Commission Tuesday to transfer the Wichita Transportation Corporation franchise to the new firm. This purchase consists of the rolling stock and mechanical equipment. “It is a method whereby we can streamline the organization and get it down to fighting size, a size where we can operate more efficiently.” Winsby, his wife Velma M., and George Powers are listed as the new incorporators. Winsby is listed as resident agent of the new firm, which proposes to issue 2000 shares at $100 each. The company will begin operations with a capital investment of $10,000.

5A. A recommendation that the Wichita Transportation Corporation franchise be transferred to the Wichita Bus Company, Inc., will be presented to the City Commission Tuesday by City Manager Frank Backstrom. The recommendation will also ask that the firm meet certain stipulations. The principal stipulation is that the franchise base rate would be computed on a new rate of $500,000 compared to $1,533,985 for 1956. Thus the firm would be able to show better earnings on existing operations for franchise payments. Backstrom also asks that depreciation of fixed assets on the books of the new company and for its reports to the city should be computed by amortizing the purchase price ($500,000) over the estimated remaining life of the assets purchased, subject to agreement by the city and the company. The city manager said the plan offers the firm an opportunity to provide Wichita with a progressive and flexible transit company in a manner impossible to achieve in the old corporate setup.

3A. Kansas Gas and Electric yesterday announced a construction project costing $11,500,000 to build a fourth unit at the Murray Gill generating plant southwest of Wichita. The new unit is now under construction and is expected to go into operation in March 1959. It will make an additional 116,000 kilowatts of capacity available. On completion of the fourth unit at Murray Gill plant, Kansas Gas and Electric has announced that it will begin construction of a completely new plant near Colwich, scheduled to be in operation in 1961. The southwest Wichita plant was started in 1950 and named for Murray F. Gill, former company president. The first unit of the plant went into service in 1952 and the second unit in 1954. The third unit went on the line last year. Electricity usage in the company’s area has increased steadily, from 750 million kilowatts in 1950 to 1744 kilowatts in 1956. Estimated use in 1960 is 2500 kilowatts (hours).
