

Dr. Edward N. Tihen (1924-1991) was an avid reader and researcher of Wichita newspapers. His notes from Wichita newspapers -- the "Tihen Notes," as we call them -- provide an excellent starting point for further research. They present brief synopses of newspaper articles, identify the newspaper -- Eagle, Beacon or Eagle-Beacon -- in which the stories first appeared, and give exact references to the pages on which the articles are found. Microfilmed copies of these newspapers are available at the Wichita State University Libraries, the Wichita Public Library, or by interlibrary loan from the Kansas State Historical Society.

Subject(s): William B. Harrison, Gerson Stearns

1. The Swallow Airplane Manufacturing Company's factory and flying field at 21st and Hillside was purchased today by a group of Wichita business men for approximately \$125,000. The purchasers are J. W. Craig of the Craig Grain Company, C. A. Noll, dealer in building supplies, J. H. Turner of the Turner Coal and Building Material Company, W. B. Harrison, president of the Union National Bank, and W. M. Moore, of Ritchey and Moore, oil producers. ¶ The change in ownership followed a receivership of three and a half months during which time the concern was under the management of George R. Bassett. The receivership was a friendly action brought August 12 when the health of J. M. Moellendick, president of the company, broke down. Details. ¶ The new owners will reorganize the corporation under the same name. For the next 60 days Mr. Bassett will remain as manager. Wavey Stearman will remain as chief engineer. The company has already contracted for 127 planes to be delivered during the coming year, totaling nearly half a million dollars worth of business. The plant is turning out three airplanes a week.
